Access Control List Management

[root]

playground

wiki

start

Permissions for Group:

Select

Please **enter a user or group** in the form above to view or edit the permissions set for the page

start

.

Quick Help:

On this page you can add and remove permissions for namespaces and pages in your wiki.

The left pane displays all available namespaces and pages.

The form above allows you to see and modify the permissions of a selected user or group.

In the table below all currently set access control rules are shown. You can use it to quickly delete or change multiple rules.

Reading the

official documentation on ACL

 might help you to fully understand how access control works in DokuWiki.

Current ACL Rules

Page/Namespace	User/Group	Permissions ¹⁾	Delete
*	@ALL	None Read Edit Create Upload Delete	
*	@user	None Read Edit Create Upload Delete	

Update

¹⁾Higher permissions include lower ones. Create, Upload and Delete permissions only apply to namespaces, not pages.

Language:

TeemIP Miscellaneous Parameters

Additional parameters

Default Language

Default Language:

Application URL

URL:

Change the value above if the end-users will be accessing the application by another path due to a specific configuration of the web server.

Path to Graphviz' dot application

Path: ?

dot is present: dot - graphviz version 2.43.0 (0)

Sample Data

- ☒ I am installing a **demo or test** instance, populate the database with some demo data.
- ☐ I am installing a **production** instance, create an empty database to start from.

TeemIP Configuration Management options

The options below allow you to configure the type of elements that are to be managed inside TeemIP's CMDB.

- ☒ **Configuration Management Core**
All the base objects that are mandatory in the TeemIP CMDB: Organizations, Locations, Teams, Persons, etc.
- ☒ **Data Center and Storage Devices**
Manage Data Center and Storage devices such as Racks, Enclosures, PDUs, NAS, SAN Switches, Tape Libraries, etc...
 - ☐ **Rack management from Molkobain**
Graphically manage and visualize your racks and enclosures.
- ☒ **Cabling**
Document the cable layouts of your networks
- ☒ **End-User Devices**
Manage devices related to end-users: PCs, Phones, Tablets, etc.
- ☐ **Virtualization**
Manage Hypervisors, Virtual Machines and Farms.
- ☒ **Networking**
Add network specific CIs like DNS domains, WAN links, AS numbers, Aggregate links, etc...

TeemIP IP, DNS and DHCP Management options

The options below allow you to set the IP, DNS and DHCP capabilities of Teemip.

☒ IPv4 and IPv6 Management

By default, Teemip manages IPv4 and IPv6 spaces.

☒ IP Discovery

Discover active IPs on networks. This extension works in conjunction with IP Discovery Collectors installed outside Teemip.

☒ DNS Zone Management

Manage DNS views, zones and DNS records in relation with IP addresses.

☒ DHCP Management

Define and register the DHCP options in use within your DHCP infrastructure.

TeemIP Request Management options

Decide whether you want to include a Helpdesk in TeemIP.

☐ Helpdesk

This option will enable the Helpdesk features.

☐ Enhanced Customer Portal

Built-in customer portal designed for hand-held devices

☒ No Ticket Management

Don't manage tickets in Teemip

TeemIP Ready to install

TeemIP version 3.2.2 is about to be installed into the **existing** database **martin** on the server **localhost**.

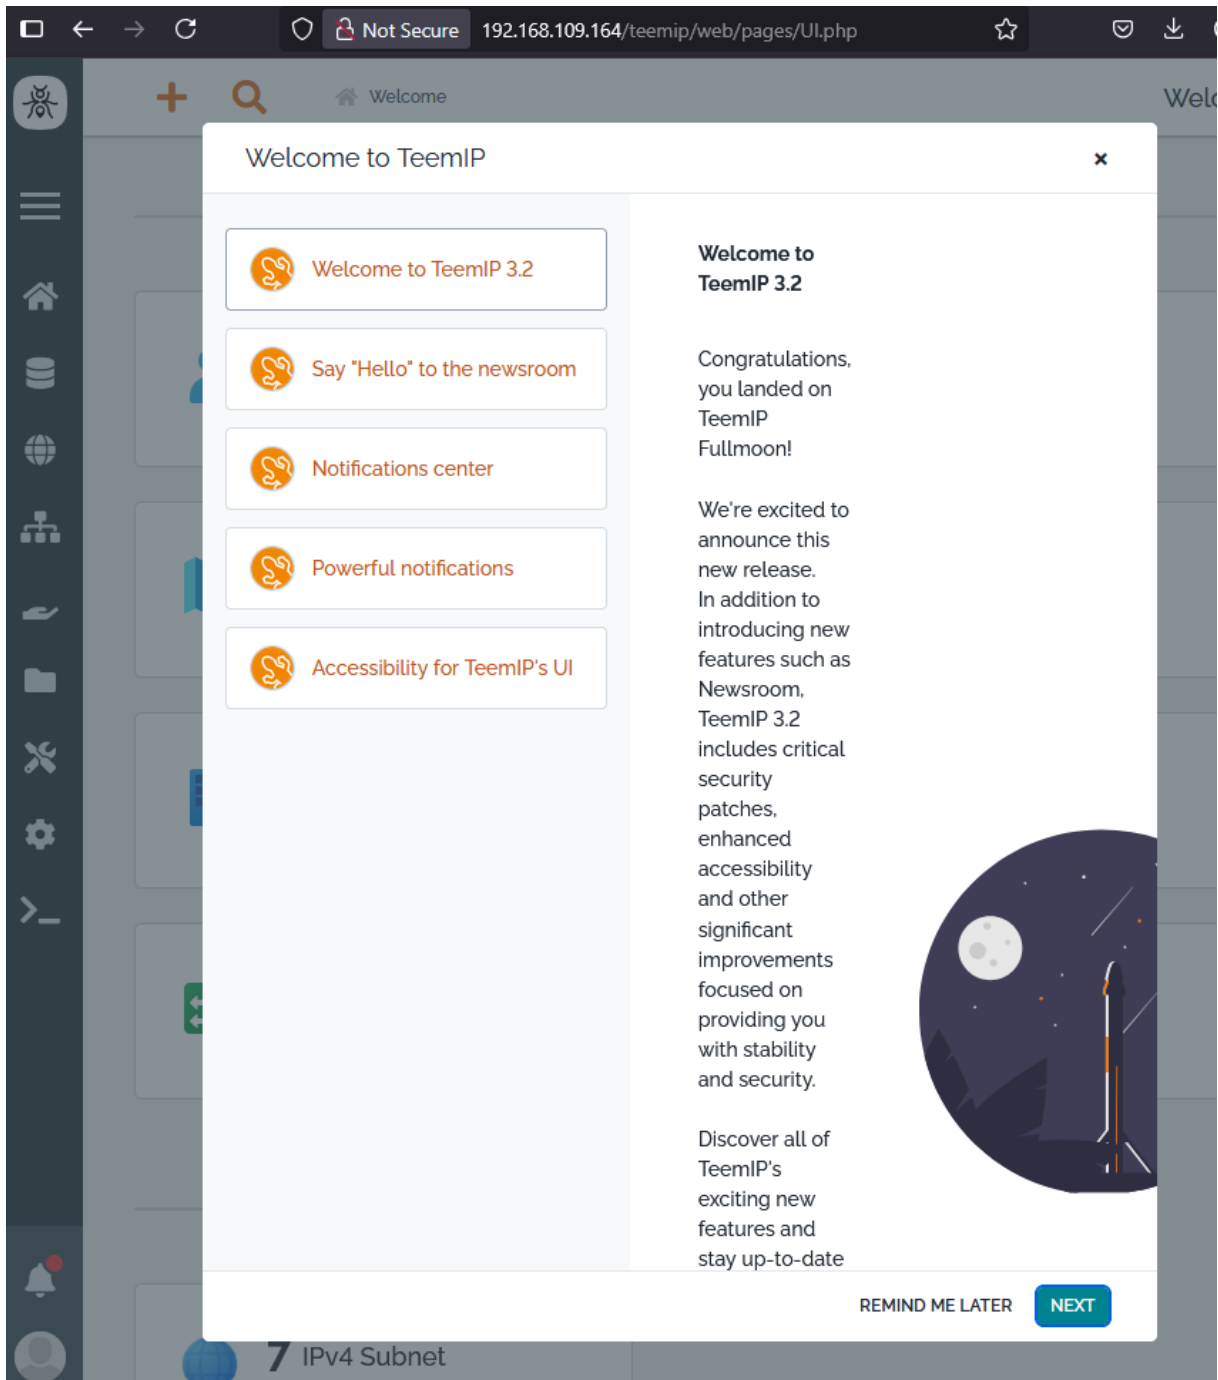

Installation Parameters

- ▼ Database Parameters
- ▼ Data Model Configuration
- ▼ Other Parameters
- ▼ Administrator Account

 TeemIP Done

Congratulations for installing TeemIP

Success: The installation completed successfully.

Welcome to TeemIP

- Welcome to TeemIP 3.2
- Say "Hello" to the newsroom
- Notifications center
- Powerful notifications
- Accessibility for TeemIP's UI

Welcome to TeemIP 3.2

Congratulations, you landed on TeemIP Fullmoon!

We're excited to announce this new release. In addition to introducing new features such as Newsroom, TeemIP 3.2 includes critical security patches, enhanced accessibility and other significant improvements focused on providing you with stability and security.

Discover all of TeemIP's exciting new features and stay up-to-date
